

GREEN AUDIT REPORT

There are ten blocks/buildings - SahidKhudiram Bhawan, Vidyasagar Bhawan, IGNOU Building, Rabindra Bhawan, Vivekananda Hall, Netaji Bhawan, S. N. Bose Bhawan, Acharya P.C. Roy Bhawan, Rani Srimoni Bhawan, Praktoni Building and one canteen. When this College was first constructed there were only three buildings- Lal Building, ThakBosta Building, and UGC Building.

Map of Midnapore College Campus

SahidKhidiram Bhawan

SahidKhidiram Bhawan is a four-storied building. In the ground floor account's section, principal's chamber, general & cash Section, xerox center, IQAC office, ICT-II, NSS were observed. On the first floor, the staffroom, girl's common room, the mathematics department (UG & PG), the ICT lab (Math), Political Science department (UG & PG) were noted down. In the second-floor lady teacher's retiring room, Geography department (UG & PG) was located. In the third-floor storerooms, classrooms of Geography were noticed. This floor is new constructed. In this Bhawan total of **642** energy sources were found including various types of electric devices (from fan to fridge etc.). and a total of **90** water sources was noted down including various sources like flush Commode, unsexual urinal, tap, etc. Generally, SahidKhidiram Bhawan opens generally at 07:00 AM and closes at 05:00 PM.

Vidyasagar Bhawan

Vidyasagar Bhawan is a five-storied building. Here on the ground floor the Sanskrit department (UG & PG) and Women's Cell were found. In the first-floor Bengali department (UG & PG), Philosophy department (UG) with many classrooms, toilets were observed. Botany department was noted down (UG & PG) on the second floor. In the third-floor History department (UG & PG), Computer Science and B.C.A. department, etc., and on the fourth-floor various departments like- Hindi & Education, Sociology & Philosophy, Statistics, etc. were found. Hindi is the newest department. In this building, an elevator system was observed. In this Bhawan total of **879** energy sources were found including various types of electric devices (from soundbox to spectrophotometer etc.) and a total of **91** water sources were noted down including various sources like flush Commode, ladies urinal, water purifier, etc. Generally, Vidyasagar Bhawan opens at 7 AM and closes at 5 PM.

IGNOU Building

The IGNOU (Indira Gandhi National Open University) building is a three-storied building. Here on the ground floor IAPT centre, Rabindra Bharati study centre, and on the first floor IGNOU study centre was found. On the second floor, the library was observed. The second floor is new construction. In this block, a total of **115** energy sources were found including various types of electric devices (from fan to printer, etc.). and a total of **12** water sources was noted down including various sources like tap, hand shower, etc. Generally, The IGNOU building opens at 11 AM and closes at 5 PM. But the office of the IGNOU building

opens at 2 PM and closes at 6 PM on Tuesday and Wednesday and on Saturday and Sunday, the office opens at 12 PM and closes at 6 PM.

Rabindra Bhawan

The Rabindra Bhawan is a four-storied building. There was an English department (UG & PG), with Language Lab, Alumni Assn. office was found on the ground floor, where in the first floor central library and second floor reading room, digital lab, virtual classroom and controller's section in the third floor were observed. In this building, an elevator system was also observed. In this Bhawan total of **511** energy sources were found including various types of electric devices (from Bulb to Router etc.) and a total of **37** water sources were noted down including various sources like Taps, Shower, etc. Generally, Rabindra Bhawan opens at 7 AM and closes at 5 PM. But sometimes the opening and closing both times may vary.

Vivekananda Hall

The Vivekananda Hall is a two-storied building. It consists of two wings. In the Wing-I Student's Council Office, ICT Room 1 on the ground floor and on the first-floor Economics department, Museum was observed. Similarly, in the Wing II- Physical Education department, the Cultural room on the ground floor and Boy's Common Room were found on the first floor. In this Vivekananda Hall total of **170** energy sources were found including various types of electric devices (from Spotlight to Exhaust Fan etc.) and **18** water sources were noted down (including various sources like Taps, Hand Shower, etc.) which is very small in number rather than other Bhawan. Generally, Vivekananda Hall opens at 11 AM and closes at 5 PM. But the cultural room has no fixed opening and closing time, it depends on the program and requirements.

Netaji Bhawan

The Netaji Bhawan is a five-storied building. Here on the ground floor Gymnasium, Medical Unit, Seminar Hall, Nutrition department were observed. In the first-floor Chemistry department (PG), Physics department (PG) department, and in the second-floor smart classrooms of Chemistry and Physics (PG) were found. There are research rooms of Chemistry and Physics on the third floor and on the fourth floor N.C. Rana Sky Observation Centre was noted down. In this Bhawan, a total of **795** energy sources were found including a large number of various types of electric devices and scientific instruments (from fan to AC or Electronic Balance to Potentiometer, etc.). In Netaji Bhawan also a total of **98** water sources

was noted down including various sources like Taps, Water Purifier, etc. Generally, Netaji Bhawan opens at 7 AM and closes at 5 PM. But sometimes the closed time may vary.

S. N. Bose Bhawan

The S.N. Bose Bhawan is a four-storied building. On the ground floor Physics department (UG) and the first-floor Electronics department (UG) were noticed. Zoology departments (UG & PG) were observed covering the second and third floors. In this Bhawan, a total of **68** water sources are observed (types of sources like Flush commode, basin with a tap, urinal, water purifier with a tap, etc.). In S. N. Bose Bhawan also total of **1075** energy sources and scientific instruments were found (Fridge to Projector etc. with various old and new laboratory instruments). Generally, S.N. Bose Bhawan opens at 7 AM and closes at 5 PM. But sometimes its opening time may vary.

Acharya P.C. Roy Bhawan

The Acharya P.C. Roy Bhawan is a three-storied building. On the ground floor Security Guard, Placement and Promotion Cell, Chemistry department (UG) was observed. In the first-floor Physiology department (PG), the Microbiology department was found. There was also Physiology department (UG) with classrooms, laboratories on the second floor. This floor is new construction. In this Bhawan total of **538** energy sources were found including various types of electric devices, instruments (from fan to Rheostat, etc.). and of total **96** water sources were noted down including various sources like Taps, Urinal, etc. Generally, Acharya P.C. Roy Bhawan opens at 7 AM and closes at 5 PM. But sometimes the closed time may vary.

Rani Srimoni Bhawan

The Rani Srimoni Bhawan is a very new construction. It is a three-storied building. In the Ground floor Auditorium, Classrooms, Hall rooms, etc. were observed, wherein on the first and second floors many classrooms were noted down. No subject-specific classrooms were noticed. In this Bhawan, a total of **89** energy sources were observed including only Tube light. The energy sources may be increased later because in all rooms total equipment was not completed still now. Here water sources were **13** including Tap, Hand shower, etc. These numbers may be increased later. Generally, Rani Srimoni Bhawan opens at 7 AM and closes at 5 PM. But these timings may be changed because this building is not fully used by Faculties and students.

Praktoni Building

The Praktoni Building is under construction at the time of survey. No energy and water sources were found yet.

Canteen

In the Canteentotal of **3** water sources were noted down including sources like Tap, Water Purifier, etc. Total **38** energy sources were noticed including Tube light, Mixer, etc. The canteen is just a one-storied building. But the old canteen was very small so that's why a new canteen room was made. Generally, It opens at 7 AM and closes at 5 PM generally.
